General Brusiloff Reported to Have Assumed Control Over Soviet Russia.

PERSIANS TURNING BOLSHEVIK

Sanks Curtailing Credits, Forcing Low ar Prices for Merchandise Wage Scale Suggested for Railway Labor-Political Developments in Both Parties.

By EDWARD W. PICKARD. Something of importance has been happening in Russia. The dispatches of the week made this fairly certain, but they did not reveal the exact na-

ture of the event. A good guess is that General Brusiloff, former commander in chief of the czar's armies, has effected a military coup and has assumed the full control of the soviet republic formerly exercised by the cithan commissaries. Rumors of this have been current for a week. A change of policy if not of authority, is indicated by the fact that a Moscow ent has been permitted, for the first time, to send a story of the hopeless collapse of transportation in soviet Russia and a prediction of the downfall of bolshevism next winter if

Interstate Commerce Commission Approves Loan-Campaign to Break Ticup Is Now Well Under Way.

Washington, May 24.-Temporary isposition of the \$300,000,000 revolving fund, provided by the transportation act for relief of railroads, was made in orders issued by the interstate commerce commission, which, at the same time, took steps to meet future equipment needs of the carriers by proposing organization of an equipment corporation with a capital stock of \$500,000,000.

Recent suggestions of the Association of Railway Executives were folsive, but the cautious ones are inclined ed resolutions expressing "unalterable lowed closely in apportioning the to accept the statements of certain re- opposition" to the league covenant as funds, but the commission confronted tailers to the effect that there can be brought back from Paris by the presino general break yet in prices and that dent; demanding free speech, free and making the "largest possible contrithe cost of living must remain at unhampered press, local self-govern- button" to meet the sums advanced about its present altitude until all of ment and the repeal of all esplonage, by the government. us, laborer, producer, merchant and sedition and conscription laws passed

The commission said it would not follow any arbitrary method of allocating the money, but would attempt to divide it so the whole country would benefit by improved transportation service.

As to the equipment trust, the com-

mission proposed that the roads should take stock in it equaling 25 per cent of the cost of the equipment, with money advanced by the government up to \$125,000,000. The remaining 75 per cent would be financed through trusts placed on equipment to be built. Some doubt was expressed as to the ability to complete the formation of such an organization. In the event that it cannot be organized, the commission said the \$125,000,000 set aside for equipment purposes should be disof personal interest in the contest, Actributed to those carriers who indicording to one story, he is the candividually "can meet the government's advance with large proportional
